- 6 christopher williams, untitled, 2014
- 7 carolyn lizard, red, 2021

the term "film" has several meanings. for example, it refers to the material that is inserted into a camera, or the product that is created: a sequence of images that we can perceive. the exhibition "film" is dedicated to these two aspects. the conceptual and structuralist works approach technical production conditions, address the seemingly fluid transition from still to moving image and play with abstraction.

der begriff „film“ hat mehrere bedeutungen. so bezeichnet er etwa das material, das in eine kamera eingelegt wird, oder eben das produkt, das dadurch entsteht: eine abfolge an bildern, die wir dadurch wahrnehmen können. diesen beiden aspekten widmet sich die ausstellung „film“. die konzeptuellen und strukturalistischen arbeiten nähern sich technischen produktionsbedingungen, thematisieren den scheinbar fließenden übergang vom stand- zum bewegt- bild und spielen mit der abstraktion.
